LUNCH ON THE GROUNDS

Foreword

It is with feelings of regret and nostalgia that we have come to the time where the McKee herd of registered Milking Shorthorns must be dispersed. The development of this herd over the past 33 years has been a source of profit and satisfaction, a project which has brought us into pleasant association with the finest people in the land.

Our objectives have been to breed cattle with size, roominess, pleasing type and profitable production. Results indicate some measure of success. We have earned the national Progressive Breeder Award four times in succession, and have qualified for the fifth one. We have bred one National Class Leader in milk and butterfat, and numerous state class leaders. We have exhibited our cattle at state and national shows for more than 30 years, and have consistently been contenders for the top honors. Besides a long list of first places (and championships) in individual classes we have been especially pleased with our group winnings for instance we have one first place on Get of Sire at the National show and nine times at the Iowa State Fair. The cows and milking heifers in the sale have an M.E. average of 13,200 milk, 490 butterfat.

The first bull to put his stamp on the herd was McKee's Lord Somerset EX, and ARM, a son of Edgewood Promoter and Maview Rose 10,125 milk. He improved production of his daughters over their dams by 1,640 milk 63 fat. He gave us uniformity in daughters, 7 EX, 18 VG, 5 GP; his get included many show winners.

Winghill Lord Irmkirk ARM, VG was a son of Stanham Irma W ARM EX, lifetime record 109,800 milk 5,150 fat. His daughters carried a particularly high test (several over 5%) and increased over dams by 664-78 pounds.

McKee's Barrington Arthur from the Arthur Simpson herd, was a son of Stanham Irma W 7th ARP, EX, Gold Medal, Hardy Award. Record at 13 years 12,560 milk 503 fat, lifetime 124,673-5,167 pounds.

A home-bred sire-son combination McKee's Mercury Somerset and McKee's Barrington Mark should have been used extensively, both improved their daughters and Mark became the first five star bull of the breed.

Rock Hill Redcoat 35th, son of D Favorite Rosebud ARM EX, 14,405 milk 643 fat at 12 years, was another sire, that left his stamp on the herd. Three production records were State Class Leaders, seven EX/daughters, nine VG, one GP. Average classification score of 88.5 is the highest for the breed for a bull with this many daughters classified. He sired a National champion and several National class winners, and a State Fair champion. First Get of Sire once at National Show and four times at Iowa State Fair.

Foxdale McKee Lochinvar ARP, VG was a son of Foxdale Robin Grace EX, grand Champion at National show 1959. 20 records on his daughter average 11,200-422. McKee's Fashion Melody is a National Leader 362 day 18,080 milk and 644 fat as Sr. 3-yr.-old.

Cobb's Cherry Lad, VG, was a son of of Cobb's Cherry ARM, EX, Jr. 3 record 15,660-635 lb. and the sire of many show winners.

We are offering some excellent POLLED cows and heifers. McKee's Red Molly lot 38. Donna Jean 2d lot 16 and her two daughters lots 17 and 18. Donna Jean 2d is out of the outstanding Polled bull Joseph P262989, whose dam has a record of 16,280-617 pounds as an 8 year old.

Your attention is called to Lots Nos. 9, 11, 12, 28, 30, 36, 41 and 56. These all all F50 MS50. They are sired by the most popular Red & White sires proved for increase in production. These 50-50 females are all Birth Recorded with the American Milking Shorthorn Society, and started on the Grade-Up program.

Our current herd sire is home-bred McKee's Matchless Dairyman VG, Lot 1, bred as well as we know how to breed a bull, son of McKee's Matchless Irma 2d ARP, 3EX 90.0, 14,760-4,770 pounds and carrying three dams over 700 pounds fat in his three generation pedigree. Some of the younger animals in the sale are sired by him, and others carry his service.

We are dispersing all the milking cows. All the bred heifers, all the 1967 heifers and 1968 heifers suitable for junior projects. We are retaining a few females which we regard as suitable for a cow-calf program.

GENERAL INFORMATION

TERMS: Cash at conclusion of auction. Checks are acceptable. Mail bid buyers may send remittance when advised the amount of their purchases.

HEALTH CERTIFICATES: Covering TB and Bangs will be available immediately at the end of the sale from Dr. J. R. Wistrom, herd veterinarian. Herd tested for TB from early days with never a reactor, county and state now accredited. Have followed official calfhood vaccination for Bangs since 1939. Every female offered in sale is calfhood vaccinated.

MAIL BIDS: Interested parties unable to attend the auction in person, are invited to send mail, telegraph or telephone bids to Harry Clampitt, Secretary of the American Milking Shorthorn Society, 313 S. Glenstone, Springfield, Mo., the auctioneer Dick Sears, Grinnell, Iowa. (Please note-as the farm is located midway between Des Moines and Carlisle, mail reaches us at Carlisle. The telephone is Wallace McKee, Des Moines 515-285-6954.) Bidders are encouraged to select the agent of your choice, and forward your bids remembering there is no mail delivery on November 28th, all of the agents can be reached the evening or the early morning before the sale at Hotel Savery, Des Moines. Phone 244-2151. Bids should specify the animals preferred, the total number desired, and the maximum bid limits. Best results are usually obtained by giving your agent some leeway. The auction personnel are expert judges of Milking Shorthorns and will buy as cheaply as possible within your instructions.

BREEDING GUARANTEE: All cattle sold in this auction are guaranteed breeders under the Standard Warranty of American Milking Shorthorn Society printed elsewhere in catalog - EXCEPT - we will NOT be in position to offer buyer a substitute animal.

CARE AFTER SALE: All animals will be cared for in the customary manner, at the buyers risk, but without charge to him, for a reasonable time after the sale.

MILK RECORDS: The herd has been on official testing program of the State for 25 years. All records quoted are actual and official for 365 day or less as shown, except a few instances where M.E. is used and specifically designated. We will furnish verified data to buyers wishing to finish any records not completed by sale date.

REGISTRY CERTIFICATES: Transferred to buyers at sellers expense.

4-H and FFA GIFT CERTIFICATES: A \$10.00 credit will be given bona fide 4-H or FFA members from any state on each animal purchased in the sale. Prospective 4-H and FFA purchasers must present adequate and current identification.

Guarantee

1. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.
2. All bulls sold as separate lots are guaranteed breeders, provided they are not allowed to serve when under 14 months of age or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.
3. Cows with own calves under four months of age by side are considered proven breeders. All other cows and heifers are guaranteed breeders, except that calves sold by side of the dam as one lot. Heifers under two years of age shall not be served by a heavy or old bull. Cows and heifers bred for more than three months, according to the service date furnished at the time of sale, but not proving in calf, must be reported to the seller within three months after date of sale; all others served within three months prior to the date of sale, not settled or proving to be in calf must be reported within six months. Females over 16 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.
4. Any animal not proving up to the foregoing guarantee shall be replaced with another of equal value at the time of purchase to the satisfaction of the purchaser, but the seller may, if he desires, have the animal returned for a retrial for a period not to exceed six months. The expense of freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt, it shall be returned to the purchaser at his expense. In case the animal proves to be not a breeder, the purchaser shall be given the option of having the purchase price refunded without interest, or of accepting a substitute as stipulated above. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply upon any animal later substituted.
5. All animals are sold subject to a 60-day retest for tuberculosis, or to comply with the laws regulating tuberculosis of the State or Country into which they be shipped. Animals shall be segregated from the buyer's herd until the retest is made except the herd be a Federal Accredited one. All tests for tuberculosis, either before sale or retest, shall be made by a Federal or State Veterinarian, or veterinarian deputized and qualified to do accredited herd testing. Purchase price to be promptly refunded upon proof of reaction, except that the purchaser shall agree to accept a substitute. All animals tested for Bang's Disease and health chart furnished with each animal.
6. Certificates of registry and transfer will be furnished with each lot sold. Shipment will be made as soon as possible after the close of the sale and without trouble to the purchaser, but at his risk of loss or injury after being bid off.
7. Terms: Cash. These terms to be complied with before the cattle leave the premises.

NOT RESPONSIBLE FOR ACCIDENTS
